IV Semester B.Com Skill Enhancement Course (SEC)

Problem Based Learning (PBL)- I

2 Hours per week with 2 credits

Problem Based Learning (PBL) is an innovative, student-centred approach to learning that emphasizes the development of critical thinking, problem-solving and self-directed learning skills. In this course, students learn by actively engaging with real-world, open-ended problems relevant to their discipline, rather than through passive absorption of content. This course encourages inquiry-based learning and experiential understanding, preparing students to address complex challenges in academic, professional, and societal contexts. The role of the instructor is that of a facilitator and mentor, guiding students through the learning process while fostering independence and lifelong learning skills.

Objective of the course

The course aims to:

- Develop analytical, problem-solving skills
- Provide practical exposure to applying theoretical concepts
- Encourage independent learning, creativity and innovation
- Introduce basic idea of inquiry and documentation
