Note:

1. All Core Courses, Employability Skill Course, Electives, Skill Enhancement and Optional courses under B.Com Programme should be taught by Commerce Faculty members only.
2. Strategic Managerial Economics and Foreign Exchange Markets papers may be taught by MA Economics Faculty in case of workload shortage for permanent faculty. It is a workload of Commerce Department.

V Semester B.Com:

Course content:

5.1: Financial Management - I

5.2: Advanced Income Tax Law

5.3: Cost Accounting - I

5.4: Business Law

5.5: Employability Skills

5.6: Problem Based Learning – II

FINANCIAL MANAGEMENT- I			
Course Code	B.Com. 5.1	IA Marks	20
Course Type (Theory/Practical/Integrated)	Theory	End Sem Marks	80
		Total Marks	100
Teaching Hours/Week	05 Hours	Duration	3 Hours
Total Hours	60 Hours	Credits	05
Course Learning Objectives: The objective of the course is to - To provide students with a fundamental understanding of concepts in financial management financial services. - To develop knowledge regarding financial planning, capital structure, and sources of finance. - To Apply capital budgeting techniques to evaluate and select investment projects - To equip learners with financial decision-making skills through practical problem-solving and case analysis. - To prepare learners for effective financial decision-making in business organizations.			
Module-1 FUNDAMENTALS OF FINANCIAL MANAGEMENT 12 Hours			
Introduction : Meaning and Objectives of Financial Management , Sources of Capital: Short-term, Medium-term, and Long-term Sources; Owned and Borrowed Capital. Capitalization: Meaning, Overcapitalization and Undercapitalization – Causes, Effects, and Remedies. Time Value of Money: Concept, compounding, discounting and Annuities			
Module-2 CAPITAL STRUCTURE AND LEVERAGE 12 Hours			
Capital structure- Capital structure decision- factors determining capital structure- Debt-equity Ratio, Preparation of statement of Income, Trading on Equity, Measurement of Leverages - Operating , Financial and combined Leverage – Effects of Operating , Financial and combined Leverage on Profit – Analyzing Alternate Financial Plans (EBIT-EPS analysis).			

Module-3 COST OF CAPITAL AND CAPITAL STRUCTURE THEORIES	2 Hours
Meaning and definition - Significance of cost of capital – Computation of cost of capital - Specific Cost of capital : Cost of debt, Cost of preference shares and cost of Equity Shares. Computation of Weighted average cost of capital . Theories of capital structure : The Net Income Approach - The Net Operating Income Approach - Traditional and MM Hypothesis.	
Module-4 CAPITAL BUDGETING	12 Hours
Capital budgeting – meaning-importance – steps in capital budgeting process- Techniques of Capital Budgeting: Traditional methods- Payback period , Accounting rate of return. Discounted cash flow methods : Net present value, Profitability Index, Internal rate of return.	
Module-5 FINANCIAL SERVICES AND STOCK MARKET OPERATIONS	2 Hours
Introduction to Financial services and Markets: meaning of Financial Services, types of Financial Services-Venture capital financing, Angel Financing, Leasing, Factoring, Credit rating, Mutual Funds. Stock market operations-Trading procedure- market participants, Public issue of shares-Book Building-Private placement-Merchant Banking, Depository services-NSDL,CDSL, Basics of online trading. ADVANCED INCOME TAX LAW			
Course Code	B.Com. 5.2	IA Marks	20
Course Type (Theory/Practical/Integrated)	Theory	End Sem Marks	80
		Total Marks	100
Teaching Hours/Week	05 Hours	Duration	3 Hours
Total Hours	60 Hours	Credits	05
Course Learning Objectives: The objective of the course is to • Compute the income of charitable trusts • Compute the income of Association of persons and co-operative society. • It will give the knowledge of special provisions of tax avoidance • It will give the knowledge of penalties under income tax act.			
ModuleNo.1: Assessment of Charitable Institutions12Hours			
Basic Introduction to Taxation of Charitable Institution under Income Tax Act 1961, Definition of Charitable purpose-Sections Governing the Exemption for Income of the Charitable Trusts covering Application of Income for the purpose of the Trust, Accumulations, Investments, Income from Capital Gain and other aspects.Conditions for applicability of Exemptions for Trust, Procedure for registration, Procedure for fresh registration, Non-Applicability of Sec 11 in certain cases, Tax on Anonymous donations, Applicability of Audit, Basics about Return of Income of Accounts of Charitable Institutions, Computation of Income and Tax thereon for Charitable Institutions.			
ModuleNo.2:Assessment of Association of Persons12Hours			
Assessment of Association of Persons (AOP) under the Income Tax Act. Disallowance under Sec 40(ba). Identifying the Rate of Tax Applicable to AOPs. Computation of the Taxable Income of the Members of AOP, Computation of Tax thereon on share of member of Association of Persons along with the relief;			
ModuleNo.3:Assessment of Co-operative Society12Hours			
Deductions in respect of Co-operative Societies, - Computation of Taxable Income and tax liability of Cooperative Society.			
ModuleNo.4:Special Provisions in the Income tax law to curb avoidance of tax12 Hours			
Mode of taking certain loans, deposits and specified sum.- Mode of undertaking transactions.- Mode of repayment of loans or deposits.- Obligation to furnish statement of financial transaction or reportable account.- Furnishing of statement of financial transaction under.Cost Methods: Opportunity cost method, standard cost method and Joint cost method (Theory only).			
ModuleNo.5:Penalties under the Income-tax Act. 12hours			
Penalty for Failure to comply with notices,- Penalty for Failure to Maintain Books of Accounts, - Penalty for Failure to get accounts audited .- Penalty for concealment of incomes including under reporting or miss-reporting of income.- Immunity from imposition of penalty.			

Skill Developments Activities:

1. Prepare a slab rates chart for different Individual assesses.
2. Visit any Chartered Accountant's office, Collect and record the procedure involved in filing the Income tax returns of an Individual.
3. List out any 10 Income exempt from tax under section 10 of an Individual.
4. Prepare the chart of perquisites received by an employee in an organization.
5. Identify and collect various enclosures pertaining to Income tax returns of an individual.
6. Any other activities, which are relevant to the course.

Books for Reference:

1. Mehrotra H.C. and T.S. Goyal, Direct taxes, Sahitya Bhavan Publication, Agra.
2. Vinod K. Singhanian, Direct Taxes, Taxman Publication Private Ltd, New Delhi.
3. Gaur and Narang, Law and practice of Income Tax, Kalyani Publications, Ludhiana.
4. Bhagawathi Prasad, Direct Taxes.
5. B. Mariyappa, Income tax Law and Practice-I, Himalaya Publishing House. New Delhi.
6. Dr. Saha, Law and Practice of Income Tax, Himalaya Publishing House.
7. Dr. Ravi M.N., Dr. Suman Shetty N and Dr. Bhanuprakash B.E., Income Tax Law & Practice, Professional Books Publishers.
8. Study material CA final ICAI

Note: Latest edition of textbooks may be used.

COST ACCOUNTING I			
Course Code	B.Com. 5.3	IA Marks	20
Course Type (Theory/Practical/Integrated)	Theory	End Sem Marks	80
		Total Marks	100
Teaching Hours/Week	05 Hours	Duration	3 Hours
Total Hours	60 Hours	Credits	05
Course Learning Objectives: The objective of the course is to Acquainting the students with the basic concepts used in cost accounting and management accounting having a bearing on managerial decision-making.			
ModuleNo.1:INTRODUCTION TO COST ACCOUNTING 12 Hours			
Objectives and Scope of Cost Accounting; Cost Terms and Concepts; various elements of costs; Methods of Costing; Techniques of Costing. Classification of Costs on Functions and behaviour.			
ModuleNo.2:MATERIAL COSTS 12 Hours			
Procurement procedures; Valuation of material receipts; Inventory control – determination of optimum order quantity and economic order quantity; Techniques of Inventory Control – ABC analysis, JIT, use of control ratios; Inventory Accounting.			
ModuleNo.3:EMPLOYEE COSTS12 Hours			
Time Keeping, Time booking and payroll; Labour turnover, overtime and idle time; Principles and Methods of remuneration and incentive schemes (including Halsey Plan and Rowan Plan);			
ModuleNo.4:OVERHEADS12 Hours			
Collection, Classification and apportionment and allocation of overheads; Absorption and treatment of over and under-absorption of overheads; Reporting of overhead costs.			
ModuleNo.5:RECONCILIATION OF COST AND FINANCIAL ACCOUNTS 12 Hours			
Need for reconciliation, Procedure for reconciliation, Reasons for disagreement in profits. Problems on reconciliation statement.

BUSINESS LAW			
Course Code	B.Com. 5.4	IA Marks	20
Course Type (Theory/Practical/Integrated)	Theory	End Sem Marks	80
		Total Marks	100
Teaching Hours/Week	04 Hours	Duration	3 Hours
Total Hours	48 Hours	Credits	03
Course Learning Objectives: The objective of the course is to 1. To familiarize students with the fundamental principles of the Indian Contract Act 1872, so they can identify legally valid contracts and assess contractual obligations in business situations. 2. To understand the legal principles governing the sale of goods, rights and duties of buyers and sellers, and remedies available in commercial transactions. 3. To provide with a comprehensive understanding of the legal framework surrounding competition and consumer protection in India. 4. To familiarize students with Intellectual Property Rights, patent laws, industrial designs, and basic cyber laws in the digital environment.			
Module-1 INDIAN CONTRACT ACT -1872 12 Hours			
Introduction- Definition of a Contract, Essentials of a Valid Contract, offer and Acceptance, Consideration, Contractual Capacity, Free Consent, Contractual Capacity, Free Consent, Classification of Contract, Breach of Contract and Remedies to Breach of Contract.			
Module – 2 THE SALE OF GOODS ACT -1930 12 hours			
Introduction – Definition of Contract of Sale, Essentials of a Contract of Sale, Conditions and Warranties, Transfer of Ownership in Goods including Sale by a Non-owner and Exceptions, Performance of Contract of Sale, Unpaid Seller, Rights of an Unpaid Seller against the Goods and against the Buyer.			
Module-3 COMPETITION AND CONSUMER LAWS 12 Hours			
The Competition Act 2002 – Objectives of Competition Act, Features of Competition Act, CAT, Offences and Penalties under the Act, Competition Commission of India. Consumer Protection Act 2019 – Definitions of the terms – Consumer, Consumer Dispute, Defect, Deficiency, Unfair Trade Practices, and Services, Rights of Consumer under the Act, Consumer Redressal Agencies – District Forum, State Commission and National Commission			
Module – 4 ECONOMIC LAWS AND CYBER LAWS 12 Hours			
Indian Patent Act, 1970- Meaning and scope of Intellectual Property Rights (IPR), Procedure to get a patent for inventions and non-inventions, Rights of a patentee and enforcement, Designs Act, 2000-Provisions and rules governing industrial designs. Cyber law: Definition, introduction to Indian Cyber law, cyberspace and cyber security- consumer protection in the digital age- Digital signature certificates			

Course Outcomes: At the end of the course the student will be able to:	
CO1	Understand the essentials of a valid contract and apply the provisions relating to offer, acceptance, consideration, capacity, free consent, and remedies for breach to analyze simple business case scenarios under the Indian Contract Act 1872.
CO2	Develop an understanding of the legal provisions governing contracts of sale, transfer of ownership of goods, and the rights, duties, and liabilities of buyers and sellers in commercial transactions
CO3	Identify unfair trade practices and understand the procedural steps for seeking redressal through District, State, and National Consumer Redressal Agencies
CO4	Understand Patent procedures, IPR protection, Industrial Design laws, and the legal aspects of Cyber Security, and Digital Signatures.

EMPLOYABILITY SKILLS			
Course Code	B.Com. 5.5	IA Marks	20
Course Type (Theory/Practical/Integrated)	Theory	End Sem Marks	80
		Total Marks	100
Teaching Hours/Week	04 Hours	Duration	3 Hours
Total Hours	48 Hours	Credits	03
Course Learning Objectives: The objective of the course is to • Articulate quantitative, logical, and analytical problem-solving skills effectively. • Analyse various real-life situations using reasoning and data interpretation techniques. • Apply mathematical aptitude and logical reasoning in competitive and professional contexts. • Develop digital literacy, communication skills, and employability competencies required for career success.			
Module-1 QUANTITATIVE APTITUDE		14 Hours	
1.1-Percentages, Profit & Loss, Discount, 1.2-Partnership, 1.3-Time, Speed & Distance (including problems on trains and boats), 1.4- Simple & Compound Interest, 1.5- Ratio, Proportion & Averages, 1.6-Problem on Ages, 1.7- Permutations and Combinations, 1.8-Probability.1.9-Mensuration (Circle, Triangle, Square and Rectangle).			
Module-2 LOGICAL REASONING		12 Hours	
2.1- Coding-Decoding, 2.2- Direction Sense Test, 2.3- Blood Relations, 2.4-Problems on Calendars, 2.5-Problem on Clocks, 2.6 - Number & Letter Series, 2.7- Seating Arrangement (Linear & Circular), 2.8-Ranking & Order.			
Module-3 ANALYTICAL REASONING AND DATA INTERPRETATION		12 Hours	
3.1- Statements & Conclusions, 3.2- Statements & Assumptions, 3.3- Statements and Arguments, 3.4- Venn Diagrams, 3.5- Syllogisms, 3.6-Data Interpretation (Bar, Pie and Table Charts), 3.7- Pattern Completion and Images, 3.8- Analogy.			
Module-4 DIGITAL LITERACY AND FINISHING SCHOOL TECHNIQUES		10 Hours	
4.1-Digital Office Skills : MS Word, MS Excel (Only layout, basic operations and shortcut keys) and MS PowerPoint, 4.2 - Basics of internet usage and online safety 4.3- Professional Email Writing, 4.3 – Writing Covering letters, 4.4 – Building Resume, 4.5 – Basic Techniques of Group Discussion 4.6 – Succeeding at Interviews			

Course Outcomes: At the end of the course the student will be able to:	
CO-1	Apply mathematical concepts such as percentages, ratio, interest, and probability to solve quantitative problems.
CO-2	Analyze and solve problems involving coding-decoding, series, seating arrangements, and logical relationships.
CO-3	Interpret data and evaluate statements using analytical reasoning techniques and data representation tools.

CO-4	Demonstrate proficiency in basic computer applications, professional communication, and interview skills.
CO-5	Integrate aptitude, reasoning, and communication skills to enhance performance in competitive exams and career opportunities.

V Semester B.Com Skill Enhancement Course (SEC)

Problem Based Learning (PBL)- II

Skill Development Activities

Problem Based Learning (PBL) is an innovative, student-centered approach to learning that emphasizes the development of critical thinking, problem-solving and self-directed learning skills. In this course, students learn by actively engaging with real-world, open-ended problems relevant to their discipline, rather than through passive absorption of content. This course encourages inquiry-based learning and experiential understanding, preparing students to address complex challenges in academic, professional, and societal contexts. The role of the instructor is that of a facilitator and mentor, guiding students through the learning process while fostering independence and lifelong learning skills.

Objective of the course

The course aims to:

- Develop analytical, problem-solving skills
- Provide practical exposure to applying theoretical concepts
- Encourage independent learning, creativity and innovation
- Introduce basic idea of inquiry and documentation

Guidelines for the course

1. The course report has to be prepared a team of students after deciding on the topic in consultation with the supervisor
2. The students must complete **minimum 2 topics (one topic for every two months)** recommended in the list.
3. It may be **theoretical, empirical, analytical, case-based, or application-oriented**, depending on the topic chosen
4. Topics should be **from the list provided by the Mangalore University** and approved by the supervisor
5. **Components of the report**
 - The report will be of minimum 10pages (excluding cover page, certificate, declaration & annexure) and shall include:
 - Title page
 - Certificate and declaration
 - Table of contents
 - Introduction – minimum one page
 - Content of the study -Data/ information collection and analysis (if applicable)
 - Conclusion – minimum one page
 - Annexure and References (if applicable)
 - **Format of the Report**
 - The reports should be prepared as **printed copies, and all four reports must be submitted** with spiral binding at the end of the semester (**2 copies in all**) **One for the student and the other to be submitted to the department.**

- Length: **Minimum 10 pages** (excluding cover page, certificate, declaration & annexure)
- Format:- Font: Times New Roman, Font size: 12 (text), 14 (headings), Line spacing: 1.5, Margins: 1 inch on all sides

6. Assessment and Evaluation

- Evaluators – internal or external commerce faculty members
- Basis for evaluation-Analysis and originality, Quality of report writing and **Presentation and viva-voce**: Each student will compulsorily present the report before the evaluators. Viva-voce is mandatory
- **Marks allotted :**
 - **Internal Assessment -Continuous evaluation : 10 marks**
 - Evaluation of the Report
 - Work carried out : 20 marks
 - Report Preparation: 10 marks
 - Presentation & viva: 10 marks

7. Workload:

- **The workload is 2 hours per week per teacher for the entire semester**
- **One project batch shall consist of a maximum of 4 students**
- **One supervisor shall guide up to 10 batches per semester**

Learning Outcomes

Upon completion of the course, students will be able to:

- Identify and analyze real-world problems
- Interpret the results and draw meaningful conclusions
- Prepare structured reports
- Present and defend their work confidently

The PBL syllabus is designed to bridge the gap between theoretical knowledge and practical application. Students work individually, analyze situations, gather and evaluate information, propose feasible solutions, and reflect on outcomes. Through this process, learners develop analytical abilities, creativity, communication skills, and ethical reasoning.

Topics recommended for the study

1. Analysis of a Partnership Deed
2. GST Calculation and Filing Practice
3. Income Tax Return Filing with relevant enclosures
4. Fiscal budget analysis
5. Company Registration process
6. Analysis of Memorandum of Understanding (MOU) of a company
7. Stock Market Trading Simulation Report
8. Insurance Policy Comparison and Analysis (any two)
9. Preparation of Loan Applications and EMI Calculations
10. Product Advertisement Design analysis
11. Sales Presentation and Product Pitching

12. Preparation of a Business Plan
13. Environmental Sustainability Initiatives of any two selected Business houses
14. Corporate Social Responsibility (CSR) practices of two companies in India
15. Waste Management Practices in Commercial Establishments (any two)

VI Semester B.Com:

Course content:

6.1: Financial Management - II

6.2: Customs Duty

6.3: Cost Accounting - II

6.4: Corporate Law

6.5: Auditing and Assurance

6.6: Problem Based Learning – III – Mini Project

FINANCIAL MANAGEMENT- II			
Course Code	B.Com. 6.1	IA Marks	20
Course Type (Theory/Practical/Integrated)	Theory	End Sem Marks	80
		Total Marks	100
Teaching Hours/Week	05 Hours	Duration	3 Hours
Total Hours	60 Hours	Credits	05
Course Learning Objectives: The objective of the course is to • To enhance understanding of risk and return relationships in financial decision-making. • To familiarize students with working capital management and liquidity management practices. • To introduce students to dividend policies, profit planning, and wealth maximization concepts. • To develop skills in financial statement analysis and interpretation for managerial decisions. • To equip learners with financial decision-making skills through practical problem-solving and case analysis. • To prepare learners for effective financial decision-making in business organizations keeping in mind the recent developments in the area of financial management.			
Module-1 RISK EVALUATION IN CAPITAL BUDGETING		12 Hours	
Risk and Uncertainty- Objectives of risk management, steps in Risk management process. Risk analysis techniques in capital budgeting: Statistical techniques, Conventional techniques- Risk adjusted discount rate, Certainty Equivalent Technique, Other techniques- Scenario analysis, Sensitivity Analysis, Decision tree Analysis			
Module-2 WORKING CAPITAL MANAGEMENT14 Hours			
Meaning and Definition, Types of working capital, Operating cycle, Determinants of working capital requirement – Estimation of working capital requirements with illustrations. Dangers of excess and inadequate working capital, Merits of adequate working capital, Sources of working capital. Concept of Cash Management, Receivable Management, and Inventory Management.			
Module-3 DIVIDEND DECISIONS AND DIVIDEND THEORIES		12 Hours	

Meaning of Dividend Decisions, Types of Dividends, Dividend Policies – Significance of Stable Dividend Policy, Determinants of Dividend Policy, Dividend Theories: Theories of Relevance – Walter’s Model and Gordon’s Model with illustrations and Theory of Irrelevance – The Miller-Modigliani (MM) Hypothesis with illustrations.
Module-4 FINANCIAL STATEMENT ANALYSIS 10 Hours
Financial Statement- Meaning & Types. Financial Analysis- Meaning, Need, Types & Techniques- Common Size Statement, Comparative Financial Statement Analysis & Trend Analysis.
Module-5 RECENT TRENDS IN FINANCIAL MANAGEMENT 12 Hours
Key Trends in Financial Management-Digital Transformation in Financial Management, Artificial Intelligence in Financial Management, Fintech revolution, Blockchain & Cryptocurrency, Green Finance, Sustainability and ESG Focus, Big Data and Financial Analytics, Embedded finance and Cloud based Financial Management. Challenges to recent trends in Financial Management

Course Outcomes: At the end of the course the student will be able to:	
CO-1	Evaluate risk and return relationships in financing and investment decisions.
CO-2	Assess working capital requirements and manage cash, inventory, and receivables efficiently.
CO-3	Examine dividend policies and their influence on firm value and shareholder wealth.
CO-4	Analyse the financial statements for efficient financial decision-making.
CO-5	Apply financial management concepts in real-world business and corporate situations.

VI Semester B.Com Skill Enhancement Course (SEC)

Problem based learning III – Mini Project

1. Introduction

A Mini Project is an important academic activity in the Bachelor of Commerce (B.Com) programme designed to provide students with practical exposure to business, commerce, finance, marketing, accounting, banking, taxation, entrepreneurship, and related fields. The project enables students to apply theoretical concepts learned in the classroom to real-world business situations through systematic investigation, data collection, analysis, and interpretation. The mini project encourages students to develop analytical thinking, research aptitude, communication skills, and problem-solving abilities. It also helps students understand current trends and challenges in commerce and business practices.

Team projects help students develop cooperation, leadership, communication, coordination, and problem-solving skills while exposing them to contemporary business practices and research methodologies.

2. Objectives of the Mini Project

The Mini Project aims to:

1. Develop research aptitude among students.
2. develop an ability to conceptualise, formulate and conduct simple research projects
3. Provide practical exposure to business and commercial activities.
4. Enable students to apply theoretical knowledge to real-life situations.
5. Improve analytical and critical thinking skills.
6. Develop data collection, interpretation, and report writing skills.
7. Enhance presentation and communication abilities.
8. Encourage independent learning and teamwork.
9. Help students gain insights into the current business environment, by analysing case studies, market trends or industry reports.
10. Equip students with skills and knowledge that are relevant to their future careers.

3. Guidelines for the Project

- Mini Project work is a mandatory paper for the VI semester. A student shall compulsorily select a topic in consultation with the faculty or guide
 - The topic of the mini project shall be relevant to the domain of commerce- Banking, Finance, Accounting, Taxation, Marketing, Insurance, Entrepreneurship, E-Commerce, FinTech, Consumer Behaviour, Digital Payments, Financial Literacy, or related areas.
 - Duration of the mini project is 15 weeks including examination.
 - Students can opt to do the mini-project individually or as a team consisting of not more than 4 members.
 - Report should be about 25-50 pages.
 - At the end of the mini project, students are expected to prepare a Report on the same and submit a draft copy to the project guide within 10th week of the VI semester.
- The concerned teacher will suggest corrections in the report and taking into account the

same. The students will prepare and submit a final report in the prescribed format by 12th week of the VI semester.

- Presentation and Viva should be completed by 14th week of the VI semester.

4. Format of the Mini Project Report

SECTION I : GENERAL SECTION

- Every report should be either Spiral bound or Hard Cover Page bound (2 copies in all) One for the student and the other to be submitted to the department.
- The cover page of the report must contain the following
 - Logo of Mangalore University
 - Name of the College.
 - Title of the mini project in Times New Roman Font 16 size, bold and centre. Submitted to - Guide Teacher Name (12 Size Times New Roman font).
 - Name of the Student (Capital & 14 Times New Roman font size and bold & centre).
 - UUCMS register Number (12 Size Times New Roman Font)
 - Name & designation of the project supervisor and department name (12 Size times New Roman font)
- Entire report will be presented in 11 size Times New Roman Font.
- Report will be prepared on the following lines:
 - Index page of contents
 - Certificate of Completion from the organisation.
 - Declaration of the Student

- Objectives of the Study — 3 to 4 objectives maximum
- Analysis and Interpretation (not less than 10 pages inclusive of maps, charts, tables, etc.)
- List of Tables, Charts, Graphs.
- Acknowledgements — Here, the candidate may thank all those who helped in the preparation of project work.
- Major Findings,-conclusions reached and suggestion or recommendations.
- Learning Outcome of the project — 1 page
- References in APA Style

SECTION III : ADDITIONAL INFORMATION

- Copy of the tool/tools of data collection.
- Bibliography

- Photographs etc

5. Workload

- **The workload is 2 hrs per week per teacher for the entire semester**
- One project batch shall consists of a maximum of 4 students
- One supervisor shall guide up to 10 batches per semester

6. Responsibility of the Supervisor

The responsibilities of the supervisor is as follows

- Assist students in selecting a relevant, feasible, and research-oriented project topic aligned with the course objectives.
- Offer continuous guidance regarding research design, data collection, analysis, interpretation, and report writing.
- Conduct regular meetings with students to track progress and ensure timely completion of each phase of the project.
- Motivate students to apply theoretical knowledge, analytical thinking, problem-solving, and decision-making skills during the project.
- Examine project drafts periodically and provide constructive suggestions for improvement in content, structure, and presentation.
- Guide students in following the prescribed format, citation style, and institutional guidelines for project report preparation.
- In the case of group projects, ensure effective participation, cooperation, and equitable contribution among team members.
- Evaluate the student's mini project work as per the assessment criteria
- Maintain all the documents related to the mini project work.
- Inform students that the university/institution reserves the right to verify the authenticity of the project work. Students must maintain accurate records and supporting documents for verification whenever required.

7. Responsibility of the student

- To select a topic, review the literature, selection of appropriate methodology, data collection, data analysis, testing of the Hypothesis etc. in consultation with the supervisor.
- To adhere to the weekly meeting schedule with the supervisor to update their progress and seek advice on project matters (Attendance is compulsory as per regulation) and submit weekly reports.
- To manage the mini project from start to finish, meeting the stated milestones and timelines.
- To report immediately to the supervisor any difficulties -encountered that would interrupt the work.
- To submit the Mini Project report on time.

8. Evaluation and Allocation of Marks

- Out of 50 marks allotted for the mini project, 30 marks (to be considered as C1) are allotted for mini project Report to be evaluated by

two examiners [one internal (respective supervisor) and another external examiner (other member of the faculty from the same department/subject allotted by the HOD/Principal)] and 20 Marks (to be considered as C2) for the Presentation and Viva-Voce to be awarded by the supervisor.

- Report will be evaluated for 30 marks by both internal and external examiners keeping in mind the guidelines for the same in consultation with each other. The presentation will be made by every student to the respective supervisor.

9. Expected Outcomes of the Mini Project

Students will

- Deepen their understanding of theoretical classroom learning
- Work effectively as members of a team.
- Apply commerce and management concepts in practical situations.
- Collect, organize, and analyze data systematically.
- Develop communication, leadership, and interpersonal skills.
- Fosters students' problem solving abilities, enabling them approach complex problems with confidence and creativity.
- Improve report writing and presentation abilities.
- Enhance employability and entrepreneurial competencies.

10. Conclusion

At the end of the mini project, students should have the opportunity to reflect on their experiences and receive feedback from the supervisors. They can evaluate themselves based on the value addition, new areas learnt, challenges faced and the scope for improvement. The Mini Project contributes significantly to the overall personality development and career readiness of B.Com students by fostering research orientation, innovation, and experiential learning.
