IV Semester B.Com Skill Enhancement Course (SEC)

Problem Based Learning (PBL)- I

2 Hours per week with 2 credits

Problem Based Learning (PBL) is an innovative, student-centred approach to learning that emphasizes the development of critical thinking, problem-solving and self-directed learning skills. In this course, students learn by actively engaging with real-world, open-ended problems relevant to their discipline, rather than through passive absorption of content. This course encourages inquiry-based learning and experiential understanding, preparing students to address complex challenges in academic, professional, and societal contexts. The role of the instructor is that of a facilitator and mentor, guiding students through the learning process while fostering independence and lifelong learning skills.

Objective of the course

The course aims to:

- Develop analytical, problem-solving skills
- Provide practical exposure to applying theoretical concepts
- Encourage independent learning, creativity and innovation
- Introduce basic idea of inquiry and documentation

Guidelines for the course

1. The course report has to be prepared by individual student after deciding on the topic in consultation with the supervisor
2. It may be **theoretical, empirical, analytical, case-based, or application-oriented**, depending on the topic chosen
3. Topics should be **from the list provided by the Mangalore University** and approved by the supervisor
4. **Components of the report**
 - The report will be of minimum 10pages (excluding cover page, certificate, declaration & annexures) and shall include:
 - Title page

Learning Outcomes

Upon completion of the course, students will be able to:

- Identify and analyze real-world problems
- Interpret the results and draw meaningful conclusions
- Prepare structured reports
- Present and defend their work confidently

The PBL syllabus is designed to bridge the gap between theoretical knowledge and practical application. Students work individually, analyze situations, gather and evaluate information, propose feasible solutions, and reflect on outcomes. Through this process, learners develop analytical abilities, creativity, communication skills, and ethical reasoning.
