Data Analytics using Excel
BSCCSSS401
Practical Knowledge/Skill Course
Compulsory Course

IV SEMESTER

B.Sc.-COMPUTER SCIENCE

Program Name	B.Sc -Computer Science	Semester	IV
Course Title	Data Analytics using Excel(Compulsory) Practical Knowledge/Skill Course		
Course Code:	BSCCSSS401	No.of Credits	02
Contact hours	2 Hours per week		
Formative Assessment Marks	10	Summative Assessment Marks	40

Works to be carried out by the students

1	Use TEXTSPLIT() and TEXTJOIN() text functions to extract First Name, Last Name and generate email ID in the format Lastname_Firstname@gmail.com				
	Sl.No	Name	First Name	Last Name	Email ID
	1	Asha Dsouza	Asha	DSouza	dsouza_asha@gmail.com
	2	Praneetha Shetty			
	3	Vishal Thakur			
	4	Vinyas Salian			
	5	Nikhil Kamath			

2	(a) Use MMULT() function to Multiply 1) Two 3x3 Matrices 2)Two 4x4 matrices (b) Use MINVERSE() function to find the Inverse of a Matrix				
---	--	--	--	--	--

3	Plot a graph for a quadratic Equation $f(x) = ax^2+bx+c$ Hint: Use Scatter Plot by finding the values of f(x) for various values				
	Values		Function $f(x)=2x^2+5x+3$		
	-4		$2*(-4*-4)+5*(-4)+3$		

		-3	$2*(-3*-3)+5*(-3)+3$																																																																									
		-2																																																																										
		-1																																																																										
		0																																																																										
		1																																																																										
		2																																																																										
		3																																																																										
		4																																																																										
4	A worksheet contains name and marks in 3 subjects . Calculate Total Marks Also do the following: a) Construct 3D Pie Chart for Total marks b) Construct 2D Line Chart for Subject 1 and Subject 3 c) Construct 2D Column Chart for Sub1,Sub2,Sub3 d) Construct Stacked Column Chart for Sub1,Sub2,Sub3 <table><tr><td></td><td>A</td><td>B</td><td>C</td><td>D</td><td>E</td></tr><tr><td>1</td><td>NAME</td><td>SUB 1</td><td>SUB 2</td><td>SUB 3</td><td>TOTAL MARKS</td></tr><tr><td>2</td><td>Deep</td><td>30</td><td>34</td><td>44</td><td></td></tr><tr><td>3</td><td>Jayesh</td><td>40</td><td>35</td><td>45</td><td></td></tr><tr><td>4</td><td>Yash</td><td>45</td><td>36</td><td>47</td><td></td></tr><tr><td>5</td><td>Sara</td><td>48</td><td>32</td><td>50</td><td></td></tr><tr><td>6</td><td>Gita</td><td>35</td><td>32</td><td>43</td><td></td></tr><tr><td>7</td><td>Jinal</td><td>32</td><td>31</td><td>37</td><td></td></tr><tr><td>8</td><td>Kavita</td><td>36</td><td>28</td><td>38</td><td></td></tr><tr><td>9</td><td>Minal</td><td>23</td><td>25</td><td>40</td><td></td></tr><tr><td>10</td><td>Naresh</td><td>43</td><td>27</td><td>50</td><td></td></tr><tr><td>11</td><td>Rima</td><td>37</td><td>44</td><td>46</td><td></td></tr></table>					A	B	C	D	E	1	NAME	SUB 1	SUB 2	SUB 3	TOTAL MARKS	2	Deep	30	34	44		3	Jayesh	40	35	45		4	Yash	45	36	47		5	Sara	48	32	50		6	Gita	35	32	43		7	Jinal	32	31	37		8	Kavita	36	28	38		9	Minal	23	25	40		10	Naresh	43	27	50		11	Rima	37	44	46	
	A	B	C	D	E																																																																							
1	NAME	SUB 1	SUB 2	SUB 3	TOTAL MARKS																																																																							
2	Deep	30	34	44																																																																								
3	Jayesh	40	35	45																																																																								
4	Yash	45	36	47																																																																								
5	Sara	48	32	50																																																																								
6	Gita	35	32	43																																																																								
7	Jinal	32	31	37																																																																								
8	Kavita	36	28	38																																																																								
9	Minal	23	25	40																																																																								
10	Naresh	43	27	50																																																																								
11	Rima	37	44	46																																																																								
5	Create a worksheet containing an Orders table with the following fields: Order ID, Order Date, Country, Ship Via, Freight. Using Microsoft Excel, perform the following operations: a) Create a summary from the given data to display the total Freight for each Country. b) Represent this summary using a bar chart. c) Modify the chart by removing the chart title, legend, and field buttons, and then resize and position the chart neatly in the space provided. d) Add a time-based filter based on the <i>Order Date</i> field and change its display to show Years. Resize and place it appropriately.																																																																											

6	Prepare a worksheet containing sales data with the columns: <i>Date, Product Name, Category, Quantity, and Unit Price</i>. Perform the following tasks: a) Subtotal ○ Sort the data by <i>Category</i>. ○ Insert subtotals to calculate the total Unit Price for each Category. b) Advanced Filter ○ Use Advanced Filter to display only the records where Category is “Electronics” and Unit Price is greater than 1000. ○ Copy the filtered result to another location in the worksheet. c) Use VLOOKUP to find the Unit Price of a product when the Product Name is entered in a cell. d) Use HLOOKUP to retrieve the Unit Price for a given Product Name.
7	Using appropriate Dataset create a DASHBOARD.

Scheme of valuation:

a) Internal Assessment	10 Marks (C1) Basis for Internal Assessment Continuous Evaluation: 10 Marks
b) Evaluation of Report	40 Marks (C2) i) Preparation and presentation: 25 Marks ii) Viva-Voce: 10 Marks iii) Record Book: 05 Marks
